

Media Center Inventory

Each media specialist shall maintain a current inventory of both print and non-print instructional materials (excluding basic textbooks, items purchased with categorical funds, and items useful only in one specific instructional content area).

Periodic Review and Revision

The policy for instructional materials and media of Camden County Schools shall be reviewed annually and any revisions necessary shall be made and recommendations forwarded to the superintendent. Individual school media committees are responsible for making recommendations and decisions related to the planning, operations, evaluation, and improvement of the media program. Each school media committee shall make an annual evaluation of media services and develop multi-year plans for budget and services priorities. Any changes in the policy for instructional materials and media will be filed annually with the Camden County Board of Education.
