## Camden's 2018 College and Career Readiness Performance Data Released

The Georgia Department of Education recently released the 2018 College and Career Readiness Performance Index (CCRPI) scores. The CCRPI is an annual report card that summarizes a school system's performance on indicators such as state assessments, academic growth, attendance, graduation rates, financial efficiency and school climate.

The CCRPI, first introduced in 2012, has changed twice since its inception with regard to the number of components, performance measures and the weighting of each component. Camden's 2018 CCRPI score sets a new baseline for performance. Comparing 2018 scores with previous years is impractical due to significant changes in calculations and individual school targets. The redesigned 2018 CCRPI is a better tool to inform local school improvement efforts.

[Click here to view the 2018 CCRPI district and school level reports.](#) Following is a summary of Camden's CCRPI performance relative to the state for each grade level:

2018 CCRPI	Georgia	Camden
Elementary	77.8	81.3
Middle	76.2	86
High	75.3	88.8
All Schools	76.6	84.4

Camden County Schools is very proud of the system's performance and looks forward to even greater performance this year. Dr. Rebecca Gillette, Assistant Superintendent of Instruction commented, "The high levels of achievement reflected in the 2018 CCRPI are attributed to strong leadership at both school and district levels, teachers' commitment to quality instruction, students taking ownership for their learning, and strong parental and community support."

The Georgia Department of Education and CCS encourages parents to refer to [A Family's Guide to Georgia's College and Career Readiness Performance Index](#) to learn more.
