

## CCS Path Forward for PreK-12 Schools

*Revised 8-13-20*

Over the past several months, we have been working with the Department of Public Health (DPH) and Camden Emergency Management, soliciting feedback through the CCS Path Forward Family Survey and partnering with our teacher and parent led System Steering Committee, to develop a plan for the reopening of our schools. Our goal in developing this plan was to minimize the impact of the COVID-19 coronavirus on our students, faculty and staff, families, and community while maximizing student development, learning, and growth.

For the 2020-2021 school year, we plan to provide both in-person learning beginning August 3<sup>rd</sup> and offering a virtual learning option for families who may not yet be ready for students to return to the classroom.

### **TRADITIONAL LEARNING PLAN**

- Students, faculty, and staff will return to traditional in-person instruction with enhanced safety protocols and sanitation practices in place in all schools and CCS buildings.
- Deep cleanings through the remainder of summer will continue prior to students/staff returning to school. School holidays and weekends will allow for periodic deep cleaning of buildings to the extent practicable.
- Classroom cleaning supplies will be provided in all classrooms for daily use.
- School leaders will continue to emphasize good cleaning practices including paying closer attention to frequently touched surfaces and taking steps to ensure all water systems and features are safe.
- A mandatory mask requirement will be in effect for all students, staff, and visitors. Masks will be required beginning Monday, August 17<sup>th</sup>. All students and staff will be required to wear masks while on school campus and while riding on our school buses.
- With the exception of the front office areas, schools will only be accessible to students, school faculty and staff and limited necessary vendors.
- Signage in classrooms, hallways, and entrances will communicate important information regarding COVID-19 symptoms, preventative measures (including staying home when sick), good hygiene, and school/district specific protocols.
- Information that will reinforce the importance of good hygiene such as handwashing and covering coughs will be shared in schools. Schools will continue to provide hand soap and paper towels along with hand sanitizer when all are available. No-touch trash cans will also be placed in schools.
- Ventilation systems operating properly to increase circulation of outdoor air, as much as possible, will be monitored to remain at a safe and healthy level for students and staff.

- Maintenance will continue to inspect buses for safety prior to students returning. Additional safety inspections for cleanliness will occur prior to students returning and as part of a regular rotation. Buses will be aired out when not in use.
- Parents are encouraged to take the temperatures of their children at home before sending them to school and keep their student home who may have a fever or are feeling unwell. Student temperatures will not be automatically screened at school but will be taken if the children report feeling unwell.
- All faculty and staff members are encouraged to check their temperatures before reporting to work. There will not be universal screening of employees upon arrival at their work locations.
- We will be conducting random temperature screenings of both employees and students and will isolate those who may display symptoms of COVID-19.
- Increased sanitation protocol will be implemented for pupil transportation, including but not limited to, bus sanitization after morning and afternoon routes, drivers provided with face masks, face shields, sanitizing cleaning supplies and gloves. Hand sanitizer will be available to all students entering or exiting the bus. Students are not required to wear masks/face coverings while on the bus but the wearing of masks is strongly encouraged. It is also recommended for parents to provide personal transportation or encourage students to walk or ride bikes if possible, to help decrease the population density on buses.
- In our cafeterias, students will not self-serve from the serving line. School Nutrition Staff will serve students or meal items will be prepackaged. An alternative to lunch payment pin pads will be provided and online payments using the SchoolBucks online system are strongly encouraged to avoid cash transactions.
- Students and staff who feel ill or experience COVID-19 like symptoms will follow protocols in place at the schools.
  - Students showing symptoms will be placed in an isolation room while awaiting parent pick-up.
  - The Department of Public Health contact tracing protocol will be supported by Camden County Schools.
- Practical accommodations for children, teachers/staff, and families at higher risk for severe illness will be considered to meet their needs.
- *Georgia High School Association* guidelines for sporting events and practices will be followed as directed.
- Schools will refrain from non-essential large gatherings such as, but not limited to, assemblies, field trips, and pep rallies.
- Essential large gatherings such as class transition, athletic and fine arts practices, and breakfast and lunch service will be adjusted as needed.

- The addition of a school social worker for the 2020-2021 school year will allow a greater opportunity to address the social-emotional needs of students who have been negatively impacted by COVID-19 or are experiencing increased stress or anxiety.
- If a student is ill or directed to quarantine, the student's absence will be marked as an excused absence when the school is given a note from the student's doctor or parent. Students will have the ability to make-up any missed work as outlined in their school's student handbook.

### **VIRTUAL LEARNING OPTION**

Camden County School System students must apply for virtual learning through Camden County Schools by completing an application. Camden County School System's application for a virtual learning will be available at each school and online. Please visit the CCS website at [www.camden.k12.ga.us](http://www.camden.k12.ga.us) to learn more about this service and to view and/or complete the application. Please note, students participating in the virtual learning program will not be allowed to participate in any extracurricular activities, including but not limited to, school clubs, athletics, band, drama events, chorus concerts, and CTAE competitions. The deadline for completing the virtual learning application will be Friday, July 24<sup>th</sup>.

### **INFORMATION SHARING AND RESOURCE LINKS RELATED TO COVID-19 AND CAMDEN COUNTY SCHOOLS**

As state mandates are updated, Camden County Schools will continue to implement the requirements issued by the Georgia Department of Education, the Governor's Office and the Georgia Department of Public Health (Georgia DPH). School system information and updates will be available on the CCS website, the CCS Facebook page, and through the SchoolMessenger phone and email notification system.
